Subject: RE: quarterly hauling numbers

Darrel,

Happy New Year! Below is a record of our hauling volumes for the final quarter of 2012. Please let me know if you have any questions before your board meeting on 1/10/13. Also, could you please send me the list of holidays that trucking is not allowed as per condition 3.1 of the town mining permit license. We share your feelings that things are going very smoothly with the new license. Please don't hesitate to contact me as Preferred's designated permit representative for anything concerning our town license.

Take care,

F.J.
