

Mark Berge

Waste sand coming from Town of Howard site is a concern.

Noise from the mine and the trucks is very annoying. If EOG really wants to be a good neighbor as they have stated they would refrain from all mine and hauling operations on Sat. & Sunday. We have always expected to live out our lives in this beautiful and peaceful township, never in our wildest dreams did we think we would have to put up with something as destructive and disruptive as a sand mine. At an earlier meeting it was mentioned that these mines were landowners retirement, what sort of a price do you put on expecting to retire in a safe, healthy, and quiet neighborhood and have that ripped away from us by companies that simply care only about their bottom line. So, EOG prove me wrong and give us all of our Saturdays and Sundays free of all mine and hauling activities.
